

Focus Group Discussion on Implementing New Towns along the Clark-Manila Railway

This event, held last July 25, 2017 in Dome Café, Shangri-La Mall, Mandaluyong City, brought together urban planning specialists and representatives from government agencies related to land development and management policy and practice, housing delivery, major infrastructure services, and real estate development. The discussions tackled the considerations and possible strategies to prepare for the effects of the future construction of the Clark-Manila Railway (CMR) System. The discussions emphasized the provision of housing and mixed-use developments along the areas traversed by the CMR segment. The participants hope that the issues and solutions presented in the FGD shall help in optimizing the opportunities of the most awaited railway system project in the region.
